

Dr. Anju Nohria is the Director of the Cardio-Oncology Program at Dana-Farber/Brigham and Women's Cancer Center and a cardiovascular specialist in heart failure and transplantation at Brigham and Women's Hospital (BWH). In addition, she is an Associate Professor of Medicine at Harvard Medical School (HMS).

Dr. Nohria received her medical degree from HMS. She completed an internal medicine residency and was a chief resident at Yale-New Haven Hospital. She then completed both a cardiovascular medicine fellowship and a heart failure and transplantation fellowship at BWH. She is board certified in cardiovascular disease and heart failure and transplantation.

Dr. Nohria's clinical interests include cardio-oncology and heart failure and transplantation. The author of approximately 100 peer-reviewed publications, she currently researches how to evaluate, prevent and treat cardiovascular complications that can arise as a result of cancer therapy.
